

999DIGRX

The 999 Digital Receiver

Introducing the ultimate solution for Townhouse Complexes, Retirement Villages and other multi remote control user locations. This self contained unit provides a large, bright and easy to read display, which can be seen from 30 m away when the code number of the remote control pressed is indicated. Storing up to 999 applications each holding up to 8 memory locations /remotes, ultimately receiving up to 8,000 different codes. The signal is received at H/O and can run for up to 2 weeks. With a relay output for a siren/radio transmitter, built in battery, transformer, charger and a weather proof box, the Digital Receiver is hard to match!
